

The

NHS

Is being broken apart...

**Emergency,
No Accident**

Enough is enough. Join us and stop this.

DOCTORS FOR THE **NHS** believe NHS services are being **marketised**. Repeated **re-organisations** have taken the NHS from its publicly funded, provided, and accountable roots. **All** sections of the NHS are now under **unparalleled pressure**. The NHS **is** being **dismantled** and could not be re-created. We are **nationwide**, with members from all branches of medicine. We are **lobbying to restore the NHS**. We **present information and arguments** to the public and to key decision makers. We **work with all groups** who share our aims.

THE NHS IS UNDER THREAT: Join us to help remove that threat

DOCTORS FOR THE **NHS**
SERVICE NOT PROFIT
